EXPERIENCE

Braden Anderson is an associate in the New York office of Wilson Sonsini Goodrich & Rosati, where he is a member of the patents and innovations practice. Braden is a biologist with technical expertise in both cell and molecular biology.

Prior to joining the firm, Braden began a research fellowship at Baylor University. His research focused on constructing delivery mechanisms to selectively target various insects, such as *Solenopsis invicta*. As a law student, Braden participated in the *Food and Drug Law Journal*, which focuses on Food and Drug Administration regulations.
